In accordance with Council approval on November 8, 2007, to move forward with staffing the additional fire company, the Fire Department is requesting a contract increase to purchase an additional fire pumper truck. As brief to Council, the additional fire company will require tow trucks, with the company taking a standard fire/rescue pumper on most calls, and with the specialized training will respond with the Department's heavy rescue truck in physical rescue (trapped firefighters or civilians) and/or large scale incidents. The Department has a heavy rescue fire truck but still needs to purchase a standard fire/rescue pumper truck.
